NEW!

## Connect-a-Pot GreenWall

GWP6K

6 x Pot GreenWall

### CUSTOM CONFIGURATIONS

The Holman Connect-a-Pot GreenWall is the ultimate customisable living GreenWall.

This GreenWall system is DIY friendly and requires minimal tools to set up.

As each pot has its own matching bracket, the arrangement possibilities are endless. Play around with scattered pots across a wall or classic block or line configurations – the final design is entirely up to you.

The pot size accommodates a variety of popular decorative and edible plants, which gives you many options of green-life to choose from.

The GreenWall is comprised of UV resistant material so placement isn't an issue, whether you want to have it in the shade, part-shade or full sun.

### Features

- ✓ Individual pot and bracket system
- ✓ Ability to expand into custom configurations
- ✓ DIY friendly instalment
- ✓ Removable pots for easy plant replacement and maintenance
- ✓ Plant a range of decorative, trailing or edible plants
- ✓ Brighten up outdoor entertainment spaces and bare walls
