INCOMING PRODUCTS FEATURES

Water Resistance

IP33 IP45 IP67 IP68 Submersible

This level of water resistance can withstand rain and winter conditions. The customer can comfortably leave their lights in the garden all year round.

4 Pin RGB

Plug & Socket
SAFE-T

The RGB lights operate on a 4 pin Plug & Socket system Reminder: You cannot connect RGB and WHITE on the same system.

No soldering or tools required

2 Pin WHITE

Plug & Socket
SAFE-T

The WHITE lights operate on a 2 pin Plug & Socket system Reminder: You cannot connect WHITE and RGB on the same system.

No soldering or tools required

Bluetooth™

The garden light system is fully operated via Bluetooth. The customer has complete control of the system on their mobile device.

LED

The LED lights are long lasting and energy efficient. The low wattage allows more lights to be connect via one controller.

WARM WHITE

The warm white lights are dimmable via the app, providing the customer the ability to increase or decrease brightness.

RGB COLOUR

The app allows the customer to change the garden lights to any colour on the spectrum.

One light - Endless colours

INTRODUCTION OF THE NEW RANGE

Inventory Information

- All Garden Lighting Stock has arrived in all 3 HOLMAN Warehouses and will be ready for dispatch immediately.

- Allocations have come through and will start to be sent out Monday 6th November.

INTRODUCTION OF THE NEW RANGE

Ranging-in the new products & Their BLG Locations

- Once the Garden Lighting bay has been relayed to the new BLG, ensure to print and replace new shelf tickets for all the bay.

- As always these new products are to be ranged to meet Holman's high merchandising presentation standards.

- Blgs have been uploaded on the Intranet and have been sent to State Managers.
