Watering PRODUCT CATALOGUE

From our Managing Director **Walter J Edwards**

Holman and Independent retailers both have a lot in common. We have the ability to form a mutually beneficial partnership to drive future success.

Both businesses have their foundation roots in Australia and remain Australian and generally family owned and operated businesses. Independent hardware retailers have been going for over 100 years and Holman only slightly more than 50. Both companies have similar values. Customer service, products always in stock, innovation in our products and processes and a fair price for a good product. We also both believe in the power of our people and the importance of TEAM – Together Everyone Achieves More.

Holman values its partnership with the independent market and is investing in bringing new products, providing more in-store support and promoting its ideas more and more to assist with driving more customers into your stores. Holman continue to

introduce new products in watering, irrigation, raised garden beds as well as a wider range of PVC fittings. Of course, there will also be new promotional products to drive sales and interest as well.

Holman continues to invest in resources to improve its service to Independents. Our field team have been working towards lifting our in-store service to a higher level. We have also opened a new warehouse in Sydney to support the plumbing business, moved our Brisbane warehouse to a newer and larger facility in Virginia and recently opened our new headquarters in Perth. These new additions have really set our business up for continued success and to cater for the continued growth of the brand.

Our team are really looking forward to working closely with you and helping to play a role in the continued success of your business. It is an exciting time ahead and we look forward to partnering with you!

Wally Edwards

Hoses & Hose End

Holman provide a full range of quality hoses.

These are available in 12mm and 18mm sizes, including a high quality knitted hose.

Holman has a comprehensive range of hose end fittings from PVC to brass, in 12mm and 18mm sizes using *Grip 'n' Lock Technology™*.

Our complete range of hose storage, guns, and lawn sprinklers, plastic and metal, will cover all your watering requirements.

Holman Grip 'n' Lock™ fittings feature a separate compression ring with extra sharp teeth that locks onto the outside of the hose.

Grip 'n' Lock™ fittings also have a longer tail and a sharp barbed that locks onto the inside of the hose. In combination they form a connection that simply will not fail. So, no more hoses popping off retaining clips that ensure smooth operation and a positive 'click' connection.

- Rain off – suspends watering during winter while retaining the time and programmed information
- Flexible manual operation – choose from automatic, semi-automatic and single station manual
- Water conservative
- Second programmable pump available for dual water supply, fertigation or filtration control
- Large blue and white backlit LCD – easy to read, with 'No AC' indicator on LCD when power is out
- Low energy micro-processor ensures long battery life
- Permanent real-time clock maintained by 3V battery
- Audio feedback on key press and alarm

Efficient light commercial watering.

Designed for residential and light commercial applications with Rain Sensor Ready (RSR™) technology.

The Holman and K-Rain range of solenoid valves are made from high quality UV resistant PVC construction.

Our valves are used for residential, and commercial applications, with K-Rain solenoids also being suitable for agricultural uses.

Weather Monitoring

Our products provide a smart and modern way of keeping tabs on the weather.

The Holman iWeather™ intelligent environmental data weather station gathers data outside of the home and transmits the collected data wirelessly to a display inside the house. Holman also stock traditional rain collecting gauges and thermometers for simple and effective weather tracking.

Drip Irrigation

Drip tubing emits precise, low flow irrigation.

It is suitable for a wide range of landscape applications, such as high density planting areas and landscaped garden beds. A range of tubing is available, each applying a different amount of water to the plants at a slow consistent rate.

GreenWalls

Our GreenWalls are innovative growing systems that allow any wall to be transformed into an edible oasis or feature wall.

They provide amazing opportunities to grow a wide variety of vegetables, herbs and flowers on vertical surfaces around the home, on balconies or in courtyards.

The modular design of the GreenWall allow each unit to be easily connected together providing complete flexibility to cover pillars, fences or walls. This allows architectural inspired patterns to be brought to life in horizontal or vertical configurations.

Raised Garden Beds

Our Raised Garden Beds are designed for creating a vibrant garden quickly and easily, with total design freedom. The modular system is incredibly flexible allowing an infinite range of possibilities.

A watering system is included, which can be connected to a tap timer by a garden hose or poly pipe for automatic irrigation. The panels can also be used for stylish garden edging. Installation is completely DIY friendly; no tools, bolts or screws needed.

6 Reasons to Install Holman Raised Garden Beds

1. Easy to assemble and don't require tools, bolts or screws
2. Watering system included
3. Available in three handy sizes
4. They are modular so you can join multiple beds together
5. Wood composite is non-toxic, termite, rot and rust resistant
6. Soil in a raised garden bed is less compact and warmer which is ideal for faster plant growth

Watering Cans

Holman watering cans are durable and robust. Metal watering cans can be used to water both indoor and outdoor plants.

The two handles offer easy balance and pouring, and the durable materials suit the harsh Australian climate.

1. DEFINITIONS

Where herein used the word "Holman" means Bookleaf Pty Ltd. as trustee for the Eden Unit Trust trading as Holman Industries and the word "Purchaser" means the person, firm or company whose name and address appears on such documents (e.g. invoices) to which these terms and conditions of sale are expressly referred to or contemplated.

2. TERMS

Payments for all goods is to be made net thirty (30) days unless agreement to the contrary is made in writing.

3. PRICES

Prices set out and referred to in this resellers price list are recommended prices only and there is no obligation to comply with the recommendations. All prices are subject to alteration without notice.

4. QUOTATIONS AND TENDERS

Unless otherwise stated or previously withdrawn, quotations and/or tenders are open for acceptance for a term of 60 days from the date of issue.

5. DELIVERY

All prices quoted are FIS Metro for orders over \$250 (excluding GST) for fittings & \$600 (excluding GST) for pipe (3m & 6m) FOB Metro to nominated freight yards for country deliveries. Pipe orders must be unloaded by forklift not manually. Pipe to be placed on separate order.

6. RESTOCKING CHARGE

Subject to prior agreement with Holman, a restocking charge of 15% will be applied on unused goods sent back for credit or exchange. Freight will not be to Holman account

7. GST

All prices quoted are exclusive of GST.

8. TITLE TO GOODS

Title to all goods sold by Holman to the Purchaser will only pass on payment in full being made for such goods. Pending such payment the proceeds of the sale of the goods by the Purchaser shall be deemed to be held in trust by the customer for Holman. At all times Holman shall be entitled to recover from the purchaser the value of the goods as a liquidated sum.

9. FUTURE DEALING

Unless otherwise agreed to in writing by Holman and not withstanding any terms appearing in documentation provided by or on behalf of the buyer the terms appearing herein shall be incorporated by implication into all agreements by Holman to supply the Purchaser with goods.

10. GENERAL

- (a) The Purchaser acknowledges that the conditions of sale as set out herein comprise the entire contract between the parties. The purchaser further acknowledges that it has not been induced to enter into this contract by any representation, advice or information given or made by or on behalf of Holman.
- (b) This contract shall be governed by the laws of the State of Western Australia not withstanding the place in which the goods or any of them are to be delivered. The Purchaser submits to the jurisdiction of the courts of the State of Western Australia including all courts of appeal there from.

11. MINIMUM INVOICE VALUE

An administration charge of \$20.00 will be applied to any orders under \$250.00 (excluding GST) invoice value.

12. SHORTAGES

Claims for shortages or errors in dispatch will not be recognised after 7 days from date of supply.

13. GUARANTEES

As per Manufacturers' specifications. The company will repair or replace any and all material parts found to be defective within the guarantee period without charge, provided it has been installed and used in accordance with the Manufacturers' or Company's instructions. No allowance will be made on any equipment for labour, freight or consequential damages, only the cost of the defective product.

14. OVERDUE ACCOUNTS

A 2% interest charge per month will apply to accounts outstanding beyond our 30 day trading terms, however this will be waived where the account is paid within 90 days of the invoice date. Holman are not responsible for any losses through an account being on Credit Hold.
